- Note:** In case cardholders do not meet the terms and conditions of the card, the bank will take the necessary actions that will have potential consequences on cardholders.
- Example of Finance Charge calculation - Retail & Cash Transactions**
Assuming that the Cardholder is assigned the statement billing date as 7th day of every month and he does the following transactions in the period 7th March and 7th April.
- Retail purchases worth SAR 8,000 on 20th March
 - Cash withdrawal of SAR 5,000 on 4th April
- It is assumed that no Previous Balance is carried forward from the 7th March statement, the Cardholder will receive his 7th April statement detailing total transactions of SAR 13,075 (principal balance + cash advance fee of SAR 75 whichever is higher).
The Cardholder needs to make a payment towards the outstanding within 23 days from the Statement Date. The payment can range between 5% and 100% of the outstanding amount. In case the outstanding balance on the Statement Date is paid in full by the Payment Due Date, no interest is charged on purchase transaction, however there will be interest charged on cash advance transactions as per the following:
 $SAR 5,075 \times 29.88\% \times 3 \text{ days} / 360 \text{ days} = SAR 12.64$
- In case a partial payment of SAR 2,600 is received for example, on the 2nd April, the Finance Charges will be calculated as per the following:
- **Retail Transaction since date of transaction until date of payment:** $SAR 8,000 \times 26.4\% \times 12 \text{ days} / 360 = SAR 79.68$
 - **Remaining amount of purchase transaction until statement issuance date:** $SAR 5,400 \times 29.88\% \times 5 \text{ days} / 360 \text{ days} = SAR 22.41$
 - **Cash Advance Transaction (from date of transaction until next statement)*:**
 $SAR 5,075 \times 29.88\% \times 30 \text{ days} / 360 \text{ days} = SAR 126.37$
- Total Finance Charges billed on the 7th of May statement will be SAR 241.10**
*Interest on cash advance transactions is calculated on a daily basis since date of transaction until cash advance transaction amount is fully settled.
- Example of Foreign Currency Transaction Fee calculation**
